

# Give your machines eternal life with Nintendo-Pak.<sup>TM</sup>

## And ye shall save.

Practically all of your old new Nintendo is brought back to its knees, Nintendo-Pak is the answer to your prayers.

It's so easy and so quick to put to use, your old games can be back at work in a matter of hours—pulling in more cash than ever.

So now, instead of watching old games turn into history before your very eyes, you can watch them turn into the next hot new games.

### Reincarnation made easy.

The Nintendo-Pak consists of side graphics, header, frontplex, FCC cage, complete control panel and all the electronics you need to give any Nintendo game new life.

You don't even need to lift a finger to make the transformation. Your authorized Nintendo distributor will take care of the whole business for you.

And you'll end up with a game practically identical with a game fresh from the factory.

**The real miracle is how little it costs.**

For the best part. Games fresh from the factory can cost you plenty. The Nintendo-Pak, on the other hand, can save you as much as 2/3.

In fact, it does such a good job at such an excellent price, it has made conversion kits obsolete.

Right now, we have two Nintendo-Paks available, Mario Bros.<sup>TM</sup> and Donkey Kong 3.<sup>TM</sup> But as time goes by, we'll be introducing one new game after another.

So call your authorized Nintendo of America distributor or contact us for referral today. Better yet, come see us at our booth at the AMOA Exposition in New Orleans October 28-30. And we'll show you how to give your machines eternal life.
